

SANDILA

The Sandila collection blends tonal, neutral colors with dimensional designs to create rugs that effortlessly add an element of simple sophistication to any room. Each rug features a 'cut and loop' technique that adds texture to the variety of designs in this collection, including simple trellis, abstract geometric, and naturally-inspired patterns. Contemporary artistry pairs perfectly with durable, long-lasting construction to meet the needs of a modern home. Each rug is machine made using state-of-the-art, computer-driven looms, and the low profile pile of super-soft polypropylene yarn provides high-end design without sacrificing comfort or durability.
